TEMPERATURE	Annual average 10.1°C
INSOLATION	1,320 hours during vegetation
VEGETATION	193 days
PRODUCTION	Feteasca Neagra: 1,240 l/ha Cabernet Sauvignon: 1,130 l/ha Merlot: 1,580 l/ha

#### WINE PRODUCTION PARTICULARITIES

The three assortment varieties are separately produced. Grapes selected first in the vineyard, then on the sorting band, processing spared flow. Wine production method in red: classic on marc, in small stainless steel recipients at la 23 °C Cabernet Sauvignon - for 17 days, Merlot - 14 days and Feteasca Neagra - 13 days. Malolactic fermentation performed right/ after the alcoholic one. The wine blending is the result of a special selection of the most valuable lots, the participation percentage of each variety being settled following 2-3 months of micro tests. Aged 10 months in small Romanian oak recipients (225 liters) 50%, 50% in stainless steel recipients. Bottle ageing: 6 months minimum.

#### CHARACTERIZATION

LIMPIDITY	Limpid - crystalline
COLOR	Intense ruby - red, with purple reflexes
SMELL	Intense and persistent, complex: woody fruits, dry plums, nuts and cinnamon.
TASTE	Complex and expressive, ample, strong but round, with a remnant post taste that emphasizes the fine and elaborate tannins.
CULINARY ASSOCIATION	Game big, stuffed beef, stuffed pork meat, aged and / or fermented cheese.
SERVING TEMPERATURE	18 - 19°C
